2-Column Layout

Preparation

1   Copy **the great sydney tours group** folder to your disk space

2   Create the standard web folder structure **and** move the files into the appropriate folders

HTML Specifications
1   **Validate** regularly and check the display of your files in a range of browsers, eg Chrome, Firefox and Edge

2   Full scale artwork is provided in digital format. A printed version is also attached

3   Open the artwork in Photoshop and refer to it throughout this task

4   **Content is provided in an html file** – open this file in your preferred text editor

HTML coding

1   Complete the <head> coding for title text, author details and css file information

2   Open the page structure diagram and apply the structural tags as indicated

3   Apply an html comment after the logo – the text is **Flickr Creative Commons NZAUS trip 960.jpg**

4   Remember to insert an id of ˈcurrentˈ in the <nav> coding. The filename of the current page is _____

5   Apply semantic coding to the content – <h1>, <span>, <h2>, <p>, <ul>, <li> and an <img> tag

   Note 1: the <span> tags are inserted around ˈThe Houseˈ text located inside the <h1> tag

   Note 2: in column 2, only the image has a link applied to it. The other items are **not linked**

6   Insert the ˈBook Nowˈ image and link it to tickets.html (you do not need to create tickets.html)

CSS Specifications

1   The font-family for the body tag starts with helvetica, then calibri, then add a suitable default font to this hierarchy

2   Insert css rules to display the background image in the nav tag – conduct your own research. Start with https://www.w3schools.com/cssref/pr_background-image.asp

3   Apply a **no repeat** rule to the background image in the nav tag

4   Apply a vertical-align rule to the image in the <header> tag (to close the gap between the logo and the navigation background)

5   Apply a **background colour of red to the #wrapper** to test that the previous step closed the gap between the logo and the navigation – revisit the previous step if required then delete the red background rule

6   Apply display block to the unordered list in the second column (for vertical display of the second column items)

7   Apply colours, sizes, spacing, alignment and effects, referring to the styles below

Body background		#010103
Body text colour		#fff8f4
Navigation text		#fff8f4, 22 pixels, no underline
Navigation text hover		#ccc
Current page indicator and its hover effect		#fff8f4, 1 pixel, solid border
Major heading		#fea93a and #fff8f4, 22 pixels, no bold
Sub-headings		#b1b7b3, 19 pixels, 0.05em letter spacing
Paragraph text		#fff8f4, 95%, 140% line height
Footer text and links		#fff8f4, 11 pixels, underline on hover

8   Remember to regularly test the display in a range of browsers

9   Remember to save and **validate** your files at regular intervals

The Great Sydney Tours Group

Home The House Fort Denison Goat Island Tickets Contact Us

The House is our most popular tour

We escort you on an exclusive tour of Sydney's famous Opera House

Arrive at the Stage Door 15 minutes before your tour departs – you must sign in and receive your tour badges before the tour starts

Concert Spaces

We visit The Concert Hall where a rehearsal may be in progress. Then we move to The Opera Theatre to view stage settings and props for the current performance

Take photos of the spectacular Sydney Harbour from our exclusive vantage points within the Opera House

3-Course Meal

Your tour ends in the Green Room where the performers hang out. Maybe you will spot a famous face or two

Here you will enjoy a 3-course meal plus a complimentary glass of wine or soft drink
